

Prima

Your Design. Expertly Built.

**Expert Contract
Electronics
Manufacturing**

Who we are

Prima Electronic Services Ltd. is a responsive contract electronics manufacturer (CEM) that sets the benchmark in terms of its output quality and breadth of technical capabilities. Whatever the project requires, Prima can provide optimised scalable solutions that meet your electronics manufacturing needs.

By engaging with Prima, you can fully outsource all your electronics manufacturing activities with a trusted and highly respected CEM partner - allowing you to focus on your core business activities.

Expertise

Drawing on many decades of industry experience.

Our expertise spans from prototyping for new product introduction (NPI) through to PCB assembly volume production.

Alongside our engineering proficiency, we also have an in-depth understanding of supply chain management and logistics to ensure the sourcing of all the necessary components for your assembly.

Our customers can truly benefit from Prima's support and advice thanks to our highly-skilled and long-serving workforce.

Quality

Ensuring the reliability and quality of your completed final product.

Our superior engineering credentials and detailed test and inspection procedures enable us to deliver assemblies that are high quality, regardless of the complexity levels involved.

Our facilities and processes conform to the stringent quality standards outlined by ISO9001:2015 (General), ISO13485:2016 (Medical) and AS9100 (Aerospace).

What we do

End-to-End Services

Prima offers a comprehensive suite of services that encompass every key aspect of the electronics manufacturing process. These include PCB layout design, procurement, PCB assembly (PCBA), Surface Mount Assembly (SMA), Through-hole assembly, mechanical assembly (box build), Automated Optical Inspection (AOI), X-ray inspection, functional testing, shipping, and obsolescence management service as well as PCB assembly rework and modification services.

Typical production batch sizes can span from a single unit all the way up to tens of thousands of units. Larger production volumes are accommodated through our growing network of offshore manufacturing partners.

Markets Served

<ul style="list-style-type: none">• Telecom and data communication• Medical device and laboratory• Industrial automation and machinery• Process and scientific instrumentation	<ul style="list-style-type: none">• Energy generation and distribution• Aerospace and defence• Automotive and transportation• Consumer and commercial electronics

Why Choose Prima?

What differentiates us from other companies in the electronics manufacturing service (EMS) sector, is our approach to delivering services which is based on:

- Leveraging our established electronics manufacturing expertise and experience to deliver high quality products.
- Continuous investment to update and expand the range of services offered to our customers as well as investing in the latest Surface Mount Technology (SMT), training, and improvement initiatives.

It is this approach that enables us to maintain our competitiveness, drive our continued commercial success and ensure that we keep pace with the constantly evolving electronics industry.
