

INTERNSHIP PROGRAMME

Are you looking for fresh thinking to drive innovation in your business forward?

Our specialist internship programme supports businesses in a variety of manufacturing sectors, from developing new products to improving process efficiency and increased productivity

How can an intern help you?

- Address a specific business challenge through a bespoke, focused project
- Access next generation of talent and skill
- Gain insight into the latest manufacturing technology and thinking
- Benefit from support from our research teams and experts

HOW DOES IT WORK?

We match you with a talented intern, supervised by our manufacturing experts, who addresses a business challenge you have identified through a focused short-term project.

Project areas include manufacturing and materials, product development, digital systems, industry automation, and business models.

Is my company eligible?

- Must be a registered business (not exclusively SMEs)
- Needs to be a UK manufacturer or part of the manufacturing supply chain
