AJT Equipment are one of the world's leading manufacturers of horizontal and vertical test beds. We offer a full production service from initial consultation through to installation and commissioning, with our team of staff on hand throughout to offer expert advice and support.

- Designed and manufactured to your specification to enable compliance with any standards you need to achieve
- Operator use and safety are always at the forefront of any AJT design, ensuring our compliance with the relevant machinery directives and standards
- The operator control system can be either simple manual, PLC or fully PC controlled, each having the option of additional data capture for verification/certification of your product
 - Delivery, installation, full operational training and certification
 - Bespoke calibration, maintenance and service plans offered
- We have produced machines with load capacities as small as 0.4kg and as big as 2000 tonnes

Since our inception in 1951, we have supplied test machines to customers in France, Angola, Malaysia, Equatorial Guinea, Bangladesh, Egypt, Azerbaijan, Algeria, Belgium, USA, Denmark, Saudi Arabia, Philippines, Bahrain, Italy, UAE, Canada, Zambia, Singapore, Brunei, Russia, Sweden, Tanzania, Sumatra, China, Vietnam, Argentina, Qatar, Jordan, Hungary, Portugal, Trinidad, Germany, Nigeria, Romania, Australia, Ghana, Ireland, Holland, and throughout the UK
