R&D INCENTIVES REGIME FOR SMEs

The Government's Research and Development (R&D) incentives regimes are designed to recognise and reward Small and Medium-sized Enterprises (SMEs) incurring costs undertaking challenging technology or science projects. They call it "R&D" but the sort of projects which can qualify is much broader.

WHY COOPER PARRY?

We have a dedicated R&D incentives specialist team with bags of experience of helping all sorts of companies claim R&D incentives.

Want to have a chat to someone about your R&D claims?
