

COATING SOLUTIONS SINCE 1895

Tradition & innovation

Since more than 125 years, the long-established company has been producing and distributing high-quality industrial coatings and is one of the most successful globally-active coatings companies.

Quality & Sustainability

Our high-quality coatings ensure value retention. Sophisticated processes and solutions ensure the highest possible sustainability.

Economic Efficiency

Excellent knowledge of raw material properties and their use in solving complicated tasks - this enables our experts to meet customer-specific requirements on a daily basis. Product and process innovation are the focus of our work - both for solvent-based and water-based systems.

Global Service & Availability

You will find us at 17 locations worldwide. As an internationally operating company, we can advise our customers everywhere on site and know the local conditions. So we are guaranteed to be close to you.
