- We operate a climate controlled Inspection Lab to carry out all QC and subsequent report requirements such as ISIRs and PPAP etc.
- Our newly built facility offers a clean and enjoyable working environment with secure entry.

GLOBAL PRECISION™

NEW PRODUCT DEVELOPMENT & MANUFACTURING PARTNER

## GLOBAL PRECISION UK – JOB OPPORTUNITIES AND CAREERS

Global Precision UK Ltd are a growing international company, with headquarters and UK manufacturing in Haworth and offshore manufacture in Dongguan China.

Working cross most market sectors Global are supplying parts and products to some of the worlds best known manufacturers such as Jaguar Land Rover, McLaren Cars and BMW as well as 3M, Mars Drinks, Bic Shavers and the NHS, to name but a few.

With an experienced team of engineers and managers, Global have created a friendly and informal structure, where employees are encouraged to use their initiative and develop their skills to improve efficiencies throughout the business. With emphasis on employees wellbeing the company has a “family” feel, which is driven from the very top by owner and M.D. Andrew Sale.

Global Precision are expecting to maintain growth throughout 2021 and beyond, though this will be dictated by contracts and customer’s product launches etc, Global hope to increase manufacturing capacity which will create further opportunities for positions such as:

- Moulding Operators and Supervisors
- Tool Setters
- Assembly workers and supervisors
- Stores/Goods manager
- Packaging
- Quality Control

Any interested candidates should contact [nigelsmith@global-precision.co.uk](mailto:nigelsmith@global-precision.co.uk) with a CV and covering letter. Although there are no immediate vacancies, opportunities are expected to arise from Q2 onwards so Global are keen to identify possible candidates in advance.

If you would like an informal chat about the business, Globals plans for the year ahead and an insight into working for the company then please contact Darren Webb throughout this event.
