

"TESTING QUALITY"

Load Cells and Portable Load Measuring Equipment

Accurate and reliable load monitoring for all industry sectors

Accuway™ Load Links

Our own brand of Accuway™ Load Links are used by lifting professionals worldwide and are renowned for their industry leading accuracy.

Due to the robust, lightweight, high tensile aluminium design, our load links are ideal for mobile applications and are available as either cabled or wireless and come in capacities ranging from 1 Tonne to 500 Tonnes.

All of our load link kits come with a handheld display, rugged lockable plastic case with foam compartments, and full calibration certificate as standard. 1te, 3.25te and 6.5te kits include a pair of corresponding shackles at no extra cost. Larger shackles can be quoted for where required.

Retro-fit load monitoring to existing applications where shackles are already available. All major shackle brands are compatible, including Van Beest, Crosby and GN Rope.
