# METAL CRAFT INDUSTRIES UK

Metal Craft Industries UK Limited, founded in 1973, are a modern sheet-metal fabrication company based in Wellingborough, Northamptonshire. We are a family-owned business, manufacturing a wide range of high-quality equipment in Stainless Steel, Mild Steel and Aluminium for High Street Retail, Supermarkets, Food Production Companies, Hotels, Catering, Warehousing and others.

With an internal design team using the latest Auto CAD and 3D modelling packages, together with state-of-the-art machine capacity, first-class fabrication facilities and our powder coating flow-line and oven, almost every aspect of our manufacturing process is done under one roof.

Among our standard product lines available at a low cost of ownership are:

- **NEW – Sanitiser Station – see opposite**
- **Stock Replenishment & Merchandising Trolleys and Tables**
- **Stainless Steel Food Preparation Tables, Cupboards and Racking**
- **Warehouse Picking Trolleys, Mobile Steps, Waste Cages and Carts**
- **Fast Food Takeaway Equipment**
- **Retail Display Units and Storage Racking**
- **Catering Sinks, Dishwasher Tables and Wash Stations**

If the item you are looking for is not included in our standard range, we would be pleased to discuss manufacturing a bespoke unit to your exact specification. Simply contact Metal Craft Industries with your idea, either with accompanying drawings if you have them, or we can have these drawn up for you to allow full visual illustrations so you can make any changes before we go into production.

**'The one-stop shop for your entire fabrication needs'**

# SANITISER STATION

Help to keep your staff and customers safe with our Sanitiser Station.

Complete with 3 adjustable shelves, towel roll holder, waste bin, shopping basket tray and lockable castors.

Includes a top panel and clip-strips on the front of each shelf to add your own safety messages.

*Please note: The sanitising products shown in the photos are NOT supplied with this item.*

# THE STOCK REPLENISHMENT COLLECTION

Help your staff to act safely, productively and professionally when replenishing stock.

Large Store Stock Trolley

Mobile Loose Stock Table

2 Step Mobile Merchandising Table

Mobile Management Table

3 Step Mobile Merchandising Table

Small Store Trolley

Bulk Stock Trolley

# FOOD PREPARATION EQUIPMENT

Metal Craft Industries specialise in the manufacture of high-quality Stainless Steel Food Preparation equipment. This is fabricated and fully welded from 304 or 316 grade DP Stainless Steel. Our standard range includes the following items used in hotel and restaurant kitchens, bakeries, butchers and other food production units:

## Wall Table - Bull Nose

With rear upstand  
Bull nose at front  
1200 (w) x 600 (d) x 850 (h) mm

## Centre Table - Bull Nose

Bull nose at both working sides  
Fitted with a storage compartment  
1200 (w) x 660 (d) x 920 (h) mm

*Both tables have an integral knife scabbard and come complete with an undershelf. They can be fitted with 4 swivel castors, of which 2 are braked, or a static version is available. Other sizes of either table are available upon request.*

## Bakery Knockout Table

Can be supplied as a wall unit  
Upstand at rear, other sizes are available  
1495 (w) x 890 (d) x 883 (h) mm

## 9 Tier Tray Trolley

Complete with plastic trays  
Four swivel castors, two are lockable  
520 (w) x 790 (d) x 1830 (h) mm

## Cupboards

Lockable sliding doors and internal shelf  
1200 (w) x 600 (d) x 850 (h) mm  
Other sizes available upon request

## Sinks

Can be a single or double bowl unit  
Comes with an upstand and undershelf  
Available with Entry/Exit for dishwasher

# FOOD PREPARATION EQUIPMENT

## Cutting Table

Complete with a changeable cutting board  
Built-in easy to clean knife scabbard  
1530 (w) x 710 (d) x 860 (h) mm

## Chopping Table

With a chopping block and cutting board  
Includes a knife scabbard and string holder  
1595 (w) x 710 (d) x 860 (h) mm

## Poultry Prep Drainer Table

With changeable yellow cutting board  
Built-in easy to clean knife scabbard  
1530 (w) x 710 (d) x 860 (h) mm

## Mobile Filleting Table

With a cutting board and knife scabbard  
Easy-to-use waste disposal feature  
900 (w) x 450 (d) x 870 (h) mm

## Our Cuisine Range (Flat Packed)

The Cuisine Range is a co-ordinated range of catering equipment manufactured from high-quality 304 DP Stainless Steel for food production professionals. There are Centre and Wall Tables in a variety of lengths and widths, Plain and Perforated Shelf Racking plus Stacking Tables for food storage, all with adjustable feet or castors, as well as Cupboards and Sinks. All items in this range are easy-to-assemble and flat packed (excluding the cupboards).

# FAST FOOD & COFFEE SHOP EQUIPMENT

Metal Craft Industries can supply all of your Stainless Steel requirements for Fast Food Takeaways, Coffee Shops and Cafes. A selection of our equipment is shown here, most items being made from 304 grade Stainless Steel which is the food industry standard. As buildings come in all shapes and sizes, we can of course manufacture bespoke items as required to suit your working area layout.

## Triple Shelf Food Warmer Stand

9 off 300w Shrouded Quartz Heat Lamps  
240 volt/50 hertz, 13 amp sockets  
1410 (w) x 500 (d) x 1950 (h) mm

## Cut Table

Designed for cutting and boxing pizzas  
With 4 lockable swivel castors  
1500 (w) x 900 (d) x 1700 (h) mm

## Drainage Shelf

Wall mounted with 3 brackets  
2300 (w) x 300 (d) mm  
Bespoke sizes available

## Double Bowl Sink Unit

With Lever Action Monobloc Mixer Taps  
Bowl size 610 (w) x 460 (d) x 300 (h) mm  
Overall size 2400 (w) x 650 (d) x 900 (h) mm

## Mop Sink

With wall mounted taps and waste  
Fitted with bucket grid  
500 (w) x 525 (d) x 425 (h) mm

## Mobile Chiller Racking

With 4 shelves, in lightweight Aluminium  
Available in 1 metre and 1.5 metre widths  
Units are 1960mm high and 500mm deep

# FAST FOOD & COFFEE SHOP EQUIPMENT

## Double Shelf Food Warmer Stand

6 off 300w Shrouded Quartz Heat Lights  
240volt/50 hertz, 13 amp socket  
1410 (w) x 500 (d) x 1730/1950 (h) mm

## Dishwasher Table and Sink

Made with hygienic 304 DP Stainless Steel  
Entry and Exit tables, with bowls to suit  
Various sizes available

## Food Preparation Tables

Available in a variety of different sizes  
Optional upstand and undershelf available  
Adjustable flange type feet or castors

## Two Seater Customer Bench

Stylish curved design with end bars  
Mild Steel and powder coated in Silver  
1100mm wide by 500mm deep

## Knee Lever Sink

Wall mounted design  
Complete with knee valve and waste  
Adjustable hot/cold mixing valve  
460mm (w) x 410 mm (d) x 610mm (h)

## Other products include:

- *Slap Table*
- *Slap Table Wall Shelf*
- *Printer Stand*
- *Makeline Keyboard Shelf*
- *Wall Mounted Keyboard Shelf*
- *Dual Arm Monitor Mount*
- *Tilt Monitor Mount*
- *Flat Screen Wall Bracket*
- *9 Tray Rack*
- *Wall Shelf*
- *Drivers Table*
- *Drop Box – 6 Compartment*
- *Hand Wash Sink*

# RETAIL DISPLAY AND DELI

Metal Craft Industries manufacture a wide range of products for supermarkets, independent stores and food production units. These items have been designed with safety in mind, both for your staff when using the equipment and your customers with 304 DP Stainless Steel used in all of our 'food-contact' products.

## Bakery Impulse Stand

Fixed five basket shelf profile  
Four swivel castors for maximum mobility  
Removable wire BZP baskets

## Baguette Slicer

High productivity – Safer than knife cutting  
For baguettes up to 270mm in length  
Clamps to the table, includes crumb tray

## Bakery Impulse Tower

Great 360 degree Open Shelf Display  
Fixed four shelf profile with data strips  
Double sided A4 sign holder at top of tower

## Floor Standing Wrapping Machine

Ideal for in-store or production units  
Hygienic 304 DP Stainless Steel  
555 (w) x 610 (d) x 990 (h) mm

## Knife Scabbards

Free-standing or Wall-mounted versions  
Made from hygienic 304 DP Stainless Steel  
Stores knives safely and securely

## Other products include:

- *Label Dispenser*
- *Scale Table*
- *Can Opener & Stand*
- *Mobile Rotisserie Table*
- *Gastronorm Triple Tray Trolley*
- *Carvery Deck*
- *Meat Carvery Clamp*
- *Oven Stand*
- *Rotisserie Oven Basket and Tray*
- *Table-top Wrapping Machine*
- *Paper Dispenser*
- *Label Peeler*
- *Menu Holders*

# WAREHOUSE EQUIPMENT

Metal Craft Industries manufacture a variety of Mobile Steps, Carts and Cages to assist in a variety of Warehouse operations. Shown below are a few of the units we currently produce, but if you require something that is not shown here, please see our website for our other products or contact us for a quote.

## Warehouse Steps

Available from 1 metre to 3 metres high  
From 4 tread up to 12 tread  
Fully mobile, complete with lifting bogie

## Waste Cage

Ideal for moving cardboard and paper  
2 rubber wheels and 2 swivel castors  
1885 (w) x 664 (d) x 1655 (h) mm

## Heavy Duty Sack Cart

Up to 300kg weight loading  
With 200mm diameter rubber wheels  
526 (w) x 230 (d) x 1120 (h) mm

## Bulk Stock Cart

Ideal for moving stock around quickly  
Two swivel and two fixed castors  
1500 (w) x 460 (d) x 1010 (h) mm

## Inspection Trolley

For carrying-out checks in the warehouse  
4-tread version shown, others are available  
Fully mobile with lifting bogie

## Dock Loading Steps

Gain safe access to trailer units  
Automatic levelling ram  
916 (w) x 1560 (d) x 2300 (h) mm

# CASE STUDIES

## Penguin Random House Distribution

One of the UK's leading third-party book distributors, Penguin Random House, operate Grantham Book Services, a 330,000 square foot unit, storing 17 million books, covering 40,000 titles for independent publishers, where most of the storage shelves are accessed by pallet trucks.

For small orders, often made up with one's and two's of specialist books stored in a section of the warehouse with very narrow aisles, the staff were using a little trolley to help them hand-pick the titles. This trolley (pictured below) was known as a 'Pram' and had two wooden platforms, on which they would place Totes or cardboard boxes.

Our customer had looked for a replacement trolley but could find nothing of the correct size to do the job, so they approached Metal Craft Industries to see if we could design a trolley to replace the 'Pram' and also have these features:

- The new trolleys should be able to stack when not in use, to save warehouse space.
- The staff used labels to identify the tote boxes and an administration storage box was required at the rear of the trolley to hold reels of these labels.
- A 'ticket holder' was required at the back of the trolley to identify the member of staff using the trolley in case it was left unattended.

We visited the warehouse to see the existing trolleys and following discussions with the staff who used the 'Pram', Metal Craft Industries produced a Prototype trolley which was tested on-site and approved. Forty of these trolleys were ordered and delivered to the warehouse a few weeks later.

*"I knew it would be hard to find a replacement trolley as I needed it to be a very specific size to go up and down the narrow aisles in our warehouse.*

*"Sure enough, there was nothing suitable 'off the shelf' but Metal Craft Industries came out to see me and suggested they could design something which would solve my problem. A few weeks later they came back to me with a Prototype which my staff tried out and gave it the thumbs-up, so I placed an order there and then.*

*"The trolleys do exactly what they need to do and now that they can be stacked away at the end of each shift, the storage area for these trolleys has more than halved, saving valuable warehouse space."*

**Finn Hoggan, Grantham Book Services**

## PHS Data Solutions

"I don't think you'll be able to help" said the gentleman on the phone, "I've looked all over the internet for someone who can supply some mobile steps for our warehouse but it seems what I need just isn't available."

The caller went on to explain that he needed several sets of steps about two metres high to access the top shelves of his document storage warehouse. There were plenty of steps of this height available from a variety of suppliers, but he required steps that would be able to be wheeled around the narrow 90 degree turns at the shelving intersections when being moved from one area of the warehouse to another and all of the steps that he'd seen in his internet search had been too wide to allow this.

He had noticed that we advertised a bespoke design service on our website and asked if we could visit him to look at his problem and take some measurements to see if Metal Craft Industries could come up with a solution for his dilemma.

Our Engineering Director duly produced drawings for a Prototype set of steps which were then manufactured and delivered to the company to be trialed and they were judged to be perfect for the job.

An order for 20 sets of steps was received and these were manufactured in our Wellingborough factory and dispatched within weeks.

*"With very narrow aisles in four of our warehouses, our staff were having to move sets of standard step ladders around to gain access to some shelves.*

*"This was not very efficient so I looked on a dozen or so internet sites for some suitable mobile steps but everything I found was just too wide.*

*"After seeing the Bespoke Design page on Metal Craft Industries' website I called them and explained my dilemma. Within a few weeks they had been to see me and produced a Prototype set of steps which worked perfectly. I'm very impressed with the personal service I received from Metal Craft Industries."*

**Adam Burden, PHS Data Solutions, Southampton**

**Another problem solved – and another success story for Metal Craft Industries!**

# BESPOKE DESIGN

Metal Craft Industries are a proactive company who are always looking to develop new products to suit the evolving needs of our customers. As well as the wide variety of standard items we manufacture and stock at our factory in Wellingborough, we also supply bespoke products upon request.

We supply retail interior designers and shopfitters with display items in all shapes and sizes, with finishes including mirror polished stainless steel and brass, as well as items powder coated to your specific colour.

Metal Craft Industries offer a prompt pricing service whilst remaining confidential and professional and we are always willing to consider entering into an NDA with customers if requested.

We would be pleased to discuss your requirements to see how we can help in coming up with the best possible solution that is both achievable and cost-effective. Once we have a clear brief, our design team can produce full visual illustrations using the latest Auto CAD and 3D packages. Our skilled craftsmen will see the project through from conception, to producing a prototype if required, and onto full scale production, to meet your expectations and to deliver within your deadlines.

# SERVICE AND CAPACITY LIST

Metal Craft Industries UK Ltd are a family-owned business, which was established in 1973

**We are a modern engineering company and can boast the following quality services:**

- State of the Art Fabrication Facilities
- Stainless Steel and Aluminium Specialists
- Auto CAD Design and Development Facilities
- 3D Modelling

**We invest in the latest technology and can offer first-class machine capacity including:**

- Trumpf L3030 4kw Laser Cutting, (capacity sheet size 3000 x 1500), Lights Out
- Trumpf TruPunch 5000 FMC CNC Punch, (capacity sheet size 2500 x 1250), Lights Out
- Bystronic Xpert 100 CNC 6 Axis Robotic Brake Press Cell 2.5 Metre
- Bystronic Xpert 150 CNC 9 axis Brake Press Extended Daylight & Stroke, Lifting Aid, 3 Metre
- Edwards 100 CNC 8 axis Brake Press Extended Daylight & Stroke, 3 Metre
- Edwards 100 CNC 6 axis Brake Press 1.5 Metre
- Flow Drilling and Tapping
- CNC Sawing and Billeting
- CNC Rivet & Hank bush applicator (up to 16 mm)
- CNC Tube manipulation (up to 65mm round)
- CNC Guillotines
- CNC Nutsert & PSM applicator
- Digital benders
- 10 TIG and MIG Welding Bays
- Stud Welding
- Spot Welding facilities
- Grain Master - Graining sheet metal to standard grit levels
- Razamax Deburring
- Stainless Steel Polishing to mirror finish
- Powder Coating in our automatic flow-line facility
- Powder Coating in our 4 Metre deep by 2.4 Metre wide by 2 Metre high box oven
- Metal treatment Iron Phosphate conversion
- Anti-Bacterial Coating Process
- Nitrogen Generation for Laser Gasses
