

FROST

ELECTROPLATING

The UK's Leading Independent Plater

www.frost-electroplating.co.uk

Why Frost Electroplating is the service you can rely on:

- Comprehensive range of finishes.
- Specialists in Gold, Silver, Electroless Nickel, Anodising & Tin.
- Experience of developing customer - specific finishes.
- Integrated Management Systems to ISO 9001, AS 9100 & ISO 14001.
- In - depth knowledge of Aerospace, Automotive, Defence & Electronic requirements.

FROST

ELECTROPLATING

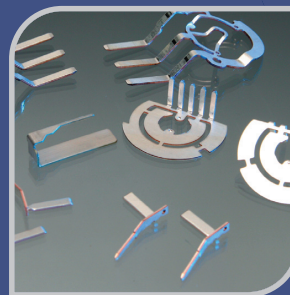

The Frost Advantage

Frost's leading position in the surface engineering industry is based on reliability & the integrity gained from working with many of World's leading manufacturers. Close liaison with design departments is central to the Frost approach which is then combined with continually improved technology to provide a quality 'value for money' service.

The Optimum Match

The company offers an extensive choice to meet the optimum match of its customers finishing requirements. All three surface engineering techniques – barrel, strip and rack – are offered by Frost. Thus component size, volume, specification and design can be accommodated within the economic requirements of the job.

Finish	Rack	Barrel	Strip
Gold	✓	✓	✓
Silver	✓	✓	✓
Tin	✓	✓	✓
Nickel	✓	✓	✓
Electroless Nickel	✓	✓	x
Copper	✓	✓	✓
Sulphuric Anodising	✓	x	x
Hard Anodising	✓	x	x
Passivation	✓	✓	x
Surtec 650	✓	x	x
Irridite coatings	✓	x	x

Quality

- Quality systems approved to ISO9001, & AS9100.
- Advanced testing facilities and assessment techniques including X-Ray fluorescence, Atomic Absorption Spectroscopy and Salt Spray corrosion testing.
- Employee development through in-house training.
- Computer controlled production capability for greater consistency and control.

Cost Effectiveness

- Continuous investment in automated plant ensures plating quality, flexibility and efficiency.
- Nationwide delivery and collection through own fleet ensures transport reliability and minimises customers' freight costs.
- Rigorous commitment to meeting the highest environmental standards ISO14001 accredited – reducing customers' environmental audit costs.
